

Sin Chew – "UNOS: A Comprehensive and Economical Malaysian Mobile Phone Application".

國產通訊軟件UNOS 全方位便宜電話

这是我国FSBM集团特制的手机通讯软件，背后还包含了齐全的收费与应用系统。这套UNOS系统，以预付的方式，能安装在任何手机，应用于任何电讯网络系统，从2G到3G（暂不支援3G视像通话），从有线到无线，一样通行。但是，最方便的还是用于国际长途电话，或到外国旅游公干时拨打国际电话，因为收费比手机直拨便宜，还能看到来电者号码。

有意试用的读者可到有关网站，以有效的手机号码免费注册一个帐号后，即可通过手机用GPRS（或EDGE或3G）下载一个约61KB大小的MIDlet手机软件，依照步骤安装在手机内，然后每次拨打任何长途电话时（或在国外发短讯时），就从手机内的UNOS软件目录开始。要注意的是，启动软件功能期间的GPRS、EDGE或3G

网络传输费，须由用户自行承担，随后由UNOS成功接通的电话，则由FSBM计算收费。

UNOS服务功能繁多，包括多方电话连线会议、群发短讯等，还有方便的UNOS Buddy call，甚至能绕过酒店的收费电话系统拨电，更开心的是，还能支援Unicode，也就是简繁体中文。每个新用户帐号，将自动获得1美元或3.6令吉的通讯费。预付通讯费用完后，目前仅能通过信用卡加额。唯一的遗憾是，这项服务目前仅提供给手机通讯的预付用户使用。

软件：MIDlet

版本：（不详）

大小：61KB（根据手机款式各异）
