

UNOS wins Red Herring 100 Asia 2008

10 December 2008 - Red Herring announced that Asialink Technology Development Ltd has been selected as a Red Herring 100 Asia 2008 Winner in respect of UNOS.

Red Herring today announced that ASIALINK TECHNOLOGY DEVELOPMENT LTD is a winner of the Red Herring 100 Asia 2008 Award, a selection of the 100 most innovative private technology companies based in Asia. Asialink Technology Development's winning of the Red Herring 100 Asia 2008 Award was for UNOS, a total communications and service delivery platform designed to provide a comprehensive communications experience for mobile device users.

The Red Herring editorial board diligently surveyed the entrepreneurial scene throughout Asia and identified the top 100 out of more than 1,000 closely evaluated companies that are leading the next wave of innovation.

"Our winners and finalists demonstrate that Asia is increasingly becoming a leader in innovation, contrary to common stereotypes," said Joel Dreyfuss, editor-in-chief of Red Herring. "It was tough to choose just the top 100 finalists from such a large list of excellent contenders, and we are very happy with the quality of the companies we selected as finalists."

The 100 winning companies have been announced at the Red Herring Asia event in Hong Kong. The CEOs of the winning startups presented their innovative ideas and technologies to an audience of leading entrepreneurs, financiers and corporate strategists at the event at the Hong Kong JW Marriott Hotel on 2 December 2008.
