**PETALING JAYA:** FSBM Holdings Bhd is confident of its prospects this year, given that it currently has contracts worth RM130mil and has submitted bids valued at RM300mil.

It also expected to submit a bid worth a few hundred million ringgit in the next few weeks, said chairman and president Datuk Tan Hock San. The bid was for a government project under the Ninth Malaysia Plan and fell under its systems and solutions segment, he told *StarBiz*.

"The results should be out by year-end," he said, but did not elaborate.

FSBM's four divisions are systems and solutions, education and training, multimedia and communications, and healthcare.

Tan said FSBM was now in discussions with a Saudi Arabian company to market its Smart City solution to that country, following its government's plans to build

»We are working on strategic alliances in Japan, Australia and Britain«

Knowledge Economy Cities in the region.

"We have been making (necessary) preparations for this project in the past four months," Tan said.

On its education segment, Tan said the training of 98,900 teachers in the country was concluded on June 1.

FSBM is known for its teachers' training

programme, which it secured in 2004 from the Education Ministry. The project, worth RM114.24mil, involves the training of 100,000 teachers in information and communications technology.

Going forward, Tan said the company was confident of the project being extended.

Meanwhile, with the release of UNOS Voice under its multimedia and communications segment, Tan said significant efforts would be made to position the product in various markets.

"We are also working on some strategic alliances in Japan, Australia and Britain over the next few months," he said.

UNOS Voice is free mobile software that offers users low roaming charges and private business exchange functionalities on their mobile phone.

Under its healthcare business, Tan said FSBM was on track to completing its total hospital information system implemented at Universiti Malaya Medical Centre. The project is valued at some RM49mil.
